

PIPERS SILKS - PRICE LIST - NOVEMBER 2009

All our Fine Twisted Silks, High Gloss Floss Silks, Twisted Gloss Silks and Silk Gimps are made from Continuous Filament (Nett) yarn.

Continuous Filament yarn is thread which is reeled off the cocoons and wound into skeins or hanks. Over 1,000 metres can be reeled off one cocoon. This type of silks has the most luxurious lustre.

The Spun Silk yarns are made from pieces of cocoons that have been shed during the preparation of the original continuous filament yarn. The small pieces of fibre are brushed and twisted together to form a thread as in cotton spinning. However it still has a smooth, silky texture and a matt sheen.

Pipers Fine Twisted Silks/Pipers Twisted Gloss Silk Gimps have a greater amount of twist in them per inch than the Pipers Floss Silks. Floss Silks have only a very few turns per inch and therefore have a more open look to them. Pipers Silk Floss is an excellent embroidery yarn. The Floss Silks lend themselves to being gently folded together to make the popular "Folded" Floss Silks. Silk is a relatively strong yarn.

NOTES ON ORDERING:-

1. CAUTION: It is recommended that coloured silks are not washed. Dry cleaning preferred.

2. Colour Charts: These are available on our website. However, if you prefer we can offer a colour matching service. Please send a sample of the colour required and we will match to the nearest possible shade.

3. When re-ordering repeat silks, if possible, please enclose sample of previous order to match

4. All Silks are wound to order, in date sequence; please advise if required for specific dates or classes - DELIVERY USUALLY WITHIN 10 DAYS BUT CAN BE UP TO 3 WEEKS FROM RECEIPT OF ORDER FOR SOME SILKS AT BUSY TIMES!
